About Oak

Oak is a specialist fund, corporate and private client services provider, with a heritage dating back to 1999, privately owned by Opera.

Oak is privately owned by Opera Limited, a new holding company backed by Pula, the family office of Stephen Lansdown, co-founder of Hargreaves Lansdown, along with like-minded shareholders such as Sealyham, the family office of Tom Scott.

Opera is much more than just a name. It reflects where we're going and how we're getting there.

The O symbolises a circle, representing unity, continuity and inclusion with the coming together of exceptional firms to create something greater than the sum of its parts. Under Opera's ownership, every business brings its own DNA, strength and perspective – and together, we're building our future. P is for Pula, the family office of Stephen Lansdown CBE. E-R-A for a new era in financial services.

With a focus on people, process, technology and data, and a commitment to embracing innovation to meet the needs of an evolving global market, Opera aims to become a world-class portfolio of businesses renowned for exceptional client service and employee experience.

At the heart of this transformation is Project Overture, Opera's five-year strategic plan focused on three key areas: platform optimisation, organic growth, and inorganic growth. By 2029, Opera will have a significantly larger portfolio of businesses, expanded its geographic reach, and accelerated revenue and value growth, all while maintaining a client-first ethos.

"Pula", the name of Stephen Lansdown's family office, carries a unique and fitting meaning. In Setswana, the language of Botswana, Pula means "rain"—a precious and rare resource in the Kalahari Desert, symbolising value and prosperity. It is also the name of Botswana's currency, reinforcing the idea of stability, growth, and long-term investment. Just as rain nurtures and sustains life, Pula's investment is about fostering sustainable, thoughtful growth, ensuring resources are in place to build something truly world-class.

Opera also owns Accuro, subject to regulatory approval and HFL.

At Oak, we have a 'client-first' mentality. We provide exceptional, personalised client service, fostering lasting relationships built on trust, integrity and expertise.

Located in five jurisdictions with more than 250 employees, we strive to create an environment where our people are cared for, enabled, empowered, and supported to provide exceptional financial solutions.

With our collaborative approach, we strive to create long-term value for our clients, while maintaining the highest standards of conduct.

We prioritise the continuous growth and development of our people, recognising that their success is the foundation of our excellent service and our shared prosperity. ESG is something we take very seriously; it is at the centre of everything we do.
